

A2
Contd.

to its center and from there it flows out of the housing through an outlet channel.

Add subtitle on page 2 after the fifth full paragraph:

A3
SUMMARY OF THE INVENTION

Replace the sixth full paragraph on page 2 with:

A4
The task of the invention is to design a device for thermal sterilization of liquids, especially drinking water, that can be produced simply and cheaply, is compactly constructed, and has low energy consumption.

Delete the first paragraph on page 3.

Replace the second paragraph on page 3 with:

A5
The invention is based on the idea of using a counterflow heat exchanger with a heat source arranged in its center for thermal sterilization of liquids.

Replace the first full paragraph on page 6 with:

A6
The invention is illustrated in more detail below by means of embodiment examples.

After the first full paragraph on page 6, add the following subtitle:

BRIEF DESCRIPTION OF THE DRAWINGS

After the ninth full paragraph on page 6, add the following subtitle:

DETAILED DESCRIPTION OF THE PREFERRED EMBODIMENT
